

Accurate for Life

The same innovative technology we developed for our popular thermocouple instruments - used by some of the most sophisticated chains in the world - is now available in selected digital thermometers. With settings stored in a non-volatile memory chip, field calibration has become a thing of the past. No "field" adjusting of calibration settings required. And no risk of introducing error into the instrument. We are so committed to ensuring the accuracy of our products that we guarantee it.

DPP400W

SPECIFICATIONS

- Waterproof.
- Anti-microbial Additive.
- Accurate for Life.
- Lifetime Warranty.

DPP400W Pen Style Digital Pocket Test

- -40° to 392°F / -40° to 200°C.
- 2.75" / 7cm Stainless Steel Stem with a reduced tip for <6 second response time.
- Max / Min / Hold modes.

DFP450W Digital Pocket Test with Temperature Alarm

- -40° to 450°F / -40° to 232°C.
- 5" / 12.7cm Stainless Steel Stem with a reduced tip for <6 second response time.
- Max / Min / Hold modes.
